Outreach Teams

Only 1% of sex trafficking victims will ever be identified.

These individuals have been manipulated and abused to where they can not recognize trafficking in their own story. They have been lied to, exploited, and made to believe they are not worthy of love or care. They have been steeped in shame and trauma. Because of this complex abuse, they will likely never seek survivor services on their own.

That's why Outreach exists. We will go find them and shine light in the darkest places.

By entering in, we communicate that their story is not too shameful, too scary, too dirty, too unreachable. We bring hope where there wasn't any before.

> Street Teams

RAHAB Street Teams go into neighborhoods and streets where prostitution and trafficking are highly active. They walk the streets as a group praying for the area, praying with those they meet, and seeking to build relationships. They frequently bring small gifts to hand out to the women they meet as a small, tangible expression of love. It may be the only gift she receives where she doesn't then 'owe' something back.

> Strip Club Teams

RAHAB Strip Club Teams visit 3-6 clubs during their monthly outings and are widely known as the "church ladies". They go to strip clubs where Outreach leaders have worked with owners and managers to receive permission to visit. They bring meals or small gifts for women and often pray with them right on the club floor as women open up about the struggles they are facing.

> Jail Ministry Teams

RAHAB Jail Ministry Teams have gone through extra steps to be granted permission to enter correctional facilities to meet women, many of whom end up incarcerated as a result of trafficking. They offer Bible Study, snacks, activities and connection. They are able to establish a support system for women that they can rely on even after they are released.

RAHAB Outreach Teams had more than **2,800** interactions with survivors in 2023
